VOL. 5

MONITOR, ALBERTA, FRIDAY, MARCH 26th 1920.

NO. 14

Board of Trade Is Now Formed

Thirty-five present at Meeting
held last Monday

The meeting called to re-organize the Board of Trade for Monitor, was held last Monday evening in the G. W. V. A. Hall. The gathering was attended by some thirty odd men, and was called to order at about 8.15 by the only remaining member of the old Board, Mr. J. Hayes. After briefly outlining the cause for calling the meeting at this time, Mr. Hayes threw it open for discussion and suggestions.

Thereupon it was moved and seconded that the Board re-organize and elect new officers, and acting upon the suggestion of Mr. A. Todd, Officers were nominated by the ballot system.

There were 10 nomination for President, from which nominees receiving 4 or less votes were eliminated, and votes cast for the balance. Our worthy friend L. E. LARDER was thus elected to the position. By the same process of balloting, L. O. BOULD was elected to the office of Vice-president, and Jas. A. HAYES, former secretary-treasurer re-elected to the office.

Resolutions and with these officers the following at present compose the Executive of the Board: Messrs. Matheson, Grace, Warner and McGirr. (Messrs. Mc Kenzie and Jas Norton were nominated, but withdrew their names.)

Considering the nature of the meeting, it was natural that not much business was discussed outside of the pressing needs calling for immediate action. These were discussed in detail and will be acted upon pronto. The compilation of the Constitution was left in the hands of the Executive, and will be ready for reading & voting on at the next meeting of the Board which occurs on Tuesday April 6th at 8 p.m. It was decided that the regular meetings of the Board take place on the first Monday evening in each month.

Before the close of the meeting, Rev. Wright, on behalf of the G. W. V. A. (Monitor Branch) offered the use of their Hall for all and any future meetings of the Board of Trade and a hearty vote of thanks was recorded the Veterans for their action.

Such matters as the procurement of a Doctor, Dentist, Mail and Telephone service were briefly discussed, together with an outline of the plans for the formation of a Municipal Hospital. Details of which will be published at a later date.

Well, the ball has been started rolling, and it is up to all of us to see it is kept on the move and in the right direction.

Local Happenings

Mr. Henry French, of Pannukun, left this week for Calgary and points west. It is likely he will be away some time.

Rev. W. S. Wickenden returned to town on Saturday last, from points east.

As anticipated, the service rendered by the Wilkie Studio is giving vast satisfaction to the photographers of the district. Drop in at the News office and see a few samples for yourself.

We are in receipt this week of a book from the government (Commission of Conservation) on the Water Powers of British Columbia, with accompanying maps. This book is profusely illustrated, and any person who is interested in that country will do well to borrow this book and read it over. There is no charge, and any one desiring the same can have it to read, providing the book is returned in good order.

Sounding Lake U. F. A. general meeting 1st Saturday in each month 8 p.m., at Horse Shoe Schoolhouse.

Mr. and Mrs. Brown of Sounding Lake, were visitors of Mr. and Mrs. A. Grace last week end.

A. Grace replaced the window pane which was broken some time ago by a dog jumping through it, on Tuesday last.

Mr. and Mrs. H. Penny and family returned to Monitor from the coast on Tuesday last.

Important Notice!

Department of Finance

Dominion of Canada

Your Income Tax Return Should be Filed at Once!!

All persons residing in Canada, employed in Canada, or carrying on business in Canada, are liable to a tax on income, as follows:

Every unmarried person, or widow, or widower, without dependent children, who during calendar year received or earned \$1,000 or more.

All other individuals, who during calendar year received or earned \$2,000 or more.

Every corporation and joint stock company, whose profits exceeded \$2,000 during the fiscal year ended in 1919.

CLASS 1

Forms to be used in filing returns on or before the 31st of March, 1920.

Trustees, executors, administrators, agents and assignees must use Form T 3.

Employers making a return of the names and amounts paid to all directors, officials, agents or other employees must use Form T 4.

Corporations and Joint Stock companies making a return of all dividends and bonuses paid to shareholders and members during 1919, must use Form T 5.

NOTE—Individuals completing partnership must file returns in their individual capacity on Form T 1 or T 1 A.

PENALTY

Every person who is required to make this return, who fails to do so within the time limited, shall be subject to a penalty of \$10.00 for each day during which the default continues, until such penalties shall be assessed and collected from the person liable to make the return in the same manner in which taxes are assessed and collected.

Address of Tax, Office of Taxation for this District:

CALGARY, ALTA.

R. W. BREADNER, Commissioner of Taxation.

Time Limit

All persons in Class 1, as shown hereon, must file on or before the 31st of March, 1920.

All persons in Class 2, as shown hereon, must file on or before the 30th of April, 1920.

General Instructions

Obtain Forms from the Inspectors of Assistant Inspectors of Taxation, or from Postmasters.

Read carefully all instructions on Form before filling it in.

Pre-pay postage on letters and documents forwarded by mail to Inspectors of Taxation.

Make your returns promptly, and avoid penalties

CLASS 2

Forms to be used in filing returns on or before the 30th of April, 1920.

All individuals other than farmers and ranchers must use Form T 1 A.

Farmers and ranchers must use Form T 1 A. Corporations and Joint Stock companies must use Form T 2.

PENALTY

Every person required to make a return, who fails to do so within the time limited, shall be subject to a penalty of twenty-five per centum of the amount of the tax payable.

Any person, whether taxable or otherwise, who fails to make a return or provide information duly required according to the provisions of the Act, shall be liable on summary conviction to a penalty of \$100.00 for each day during which the default continues. Also that any person making a false statement in any return or in any information required by the Minister, shall be liable, on summary conviction, to a penalty not exceeding \$10,000, or to six months' imprisonment or to both fine and imprisonment.

IN MEMORY OF MABEL STRICKLAND

Upon the heights that we have not scaled
She walks in Dispresence with a soul unvelled
Your dear one waits for thee
If spirit loveth spirit beyond the sea, and a maid like here is free,
That could not other than Heaven be, where your Mabel waits for thee.
Since God's called her before you go,
I more than this believe, I surely know—Beyond all pain or death or woe,
In the land where living waters flow, Now Mabel is waiting for thee.

If Your Food Ferments or Disagrees Just Read This!

Thousands of broken-down despondent dyspeptics have recently been given back their health.

These happy people don't proclaim it was a miracle that endowed them with a new lease of life—it was simply their common sense in selecting a tried and proven medicine, one specially adapted to their particular ailment.

All these splendid cures were effected by Dr. Hamilton's Pills, which beyond all question have a strange power to restore a weak or ailing stomach.

If your stomach is tired and overworked try Dr. Hamilton's Pills, and note the prompt improvement. Pain before or after eating will disappear. You'll no longer have that nauseous, gassy, bad tasting sensation. You'll get a real, vigorous appetite and digest what you eat. Lots of food digested food is bound to increase your strength, to make you brighter and more ambitious; in a week you'll feel like a different person, in a month you'll be permanently restored.

For folks who are out of sorts, not feeling just up to the scratch, perhaps bothered with headaches or constipation, to them Dr. Hamilton's Pills will prove a boon.

Best Means of Raising Alfalfa

When Sown With Grasses Care Must
Be Taken Against Alfalfa
Being Choked

So far, alfalfa is generally grown alone. The difficulty to secure a good stand experienced in the past is to quite an extent responsible for this practice, as it has become a sort of a hammered-in rule to "give alfalfa every possible chance to establish itself." On this account it is generally deemed unwise to sow any grass with the alfalfa because it is considered that, in doing it, there may be a certain danger of the alfalfa not getting the best opportunity to gain a firm foothold. This view is undoubtedly correct in the majority of cases, especially where on account of climatic and soil conditions, the starting of alfalfa may meet with some difficulties.

On the other hand, experience has shown that, in sections where alfalfa can be grown easily, some admixture of certain alfalfa and western rye grass yield excellent crops providing that the mixtures are so balanced that the alfalfa and the western rye are given equal chances to establish themselves. In Eastern Canada several grasses have been tried in mixture with alfalfa, and the results so far obtained certainly seem to indicate that such mixtures may profitably be grown, providing that the right varieties of grasses are chosen.

When choosing the grasses to be used in mixture with alfalfa, it should be kept in mind, in the first place, that such grasses as are apt to choke out the alfalfa on account of their inclination to spread out must be avoided, and secondly, that only those which are early are of any particular value. Timothy, for instance, which reaches full development comparatively slowly, is rather unsatisfactory in mixture with alfalfa. When the latter is ready to cut for hay, the timothy is hardly more than half ready, the consequence of course being that the full benefit of it is not being realized. To defer the cutting of the mixture until the timothy is at its best, can, of course, not be recommended, for by doing so a poorer quality of hay will be secured as far as the alfalfa is concerned. It will also check the prompt development of the second crop.

The grasses which go best with alfalfa are those which are ready to be cut at the same time as the alfalfa. There are three grasses of this type that deserve to be mentioned, viz, tall fescue, orchard grass and meadow fescue.

The tall oat grass is comparatively susceptible to cold winters and should therefore not be used in districts where the winters are severe. Where it can be grown without losses on

account of winter killing, however, it goes excellently with alfalfa.

The orchard grass is especially well adapted to well drained soil, and on such land it may to great advantage be used in mixture with alfalfa. Its nutritive qualities are excellent, and besides, it has the reputation of being one of the best weed checking grasses known.

The meadow fescue, which is universally recognized as one of the most valuable grasses, especially for dairy cows, has the advantage over both orchard and tall oat grass in that it is harder. It may, therefore, be used with alfalfa in districts where the former grasses may suffer from lack of winter hardness. It also comes on quicker after cutting, contributes more to the bulk of the second hay crop, provides more pasture in case the field should be used for that purpose, and yields better results on land which is somewhat wet on account of imperfect drainage. On the whole, the meadow fescue may be universally recommended in mixture with alfalfa.

Advice to Farmers is Raise More Hogs

General Gunn Tells of Conditions in
England

"The world will be surprised when the next figures of the export trade of Great Britain are published," said Brig.-Gen. J. A. Gunn, who drew a most optimistic picture of the conditions in the old land, when he arrived in Toronto from a lengthy visit to England. "I found that same tenacity, that same bulldog spirit, exhibited there during the war by soldier and civilian alike, now permeating the business community in its fight to regain the world's trade."

Asked whether the Argentine and Australian competition was not seriously affecting Canadian and American beef exports now that the shipping situation was easier, he replied that the exports from those countries had increased enormously, but that Canadian interests would not be affected, as Canada consumes almost as much beef as she produces. "I found, however, that Canadian hog products were in great demand over there, and my advice to the farmer is, raise more hogs. He need not be afraid of a decline in prices, for while beef may get a little cheaper something entirely unforeseen will have to happen before the price on hogs declines."

The General stated that the shipping situation was so much easier that an appreciable reduction in freight rates may be expected this spring.

Inventors Form Union

Numbers Amongst Members Notable
People in World of Industry
and Research

And so one of the latest additions to the ever-growing list of trade unions is an inventors' union. Such an organization was recently registered in Great Britain, and already numbers amongst its members some notable people in the world of industry and research. For the purposes of the new union, the word invention is to have the largest possible meaning. Every kind of forward effort, from a new educational scheme to a new device for utilizing a waste product, may consider itself an invention. Then, an effort is to be made to raise the whole status of the inventor in the public estimate, to insure, in fact, that invention shall be seen for what it undoubtedly is, "a distinct branch of technical research." All this is very welcome and commendable. Inventors are certainly entitled to much more protection and encouragement than they now receive. — Christian Science Monitor.

Saskatchewan Dairy Production

In his agricultural report for the last fiscal year the Dairy Commissioner for Saskatchewan shows the remarkable increase of 18.70 per cent. for the province in dairy production. Though 97 bars of butter were reserved for home trade, a total of 2,425,000 pounds of butter went to outside markets. The total value of the dairy products is given as \$3,180,622.

We often see weak old men and weak old babies.

Egypt's Prosperity Due to Cotton

Land Selling at £600 An Acre in
Upper Egypt

In spite of the clouds of political unrest, which happily appear to be dissolving under the sagacity and obvious honesty of the Milner commission, material prosperity in Egypt still booms extraordinarily. The high price of Egyptian cotton, which is now about eight times that of a fair pre-war average, is naturally the main cause of this prosperity, as cotton is Egypt's principal produce. Land values are rising daily, and one hears of prices being paid which sound fantastic to the conservative agriculturist. While £200 and £300 an acre for average good land in the Delta seems reasonable, it appears to be hard to believe the report of land selling at £600 an acre in upper Egypt.

Yet the extraordinary wealth of such land is obvious when it is recollected that it should produce from five to six cantars of cotton an acre on half the area annually, which at present-day prices would represent a gross revenue of some £70 an acre. While the maize, clover and wheat or beans that could also be grown in that same year would be worth about £20. As the expenses of production, including the land tax, would not exceed £15, the acre would give a net revenue of some £75 per annum; a revenue which fully justifies high capital values. As Egypt is essentially an agricultural country, it is only natural that prices in general should be soaring until living has become astonishingly expensive, the present cost being about 300 per cent over that of pre-war days.

"The leech, like the camel, is supplied with a storage reservoir for surplus fat, which enables it to go many days without food."

NOW RAISES 600 CHICKENS

After Being Relieved of Organic Trouble by Lydia E. Pinkham's Vegetable Compound.

Oregon, Ill.—"I took Lydia E. Pinkham's Vegetable Compound for an organic trouble which pulled me down until I could not put my feet on the ground. I could scarcely do my work, and as I live on a small farm and raise six hundred chickens every year it made it very hard for me."

"I saw the Compound advertised in my paper, and tried it. It has restored my health so I can do all my work and I am so grateful that I am recommending it to my friends." — Mrs. P. M. Adams, R. R. 4, Oregon, Ill.

Only women who have suffered the tortures of such troubles and have dragged along from day to day can realize the relief which this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, brought to Mrs. Adams. Women everywhere in Mrs. Adams' condition should profit by her recommendation, and if there are any complications write Lydia E. Pinkham's Medicine Co., Lynn, Mass., for advice. The result of their 40 years' experience is at your service.

Explosion Caused By Wireless

No Difficulty in Firing Gun From a
Spot 300 Miles Away

At the Marconi station at Chelmsford, England, the other day a small mine of gunpowder was exploded by the use of an automatic wireless transmitter at Cambridge, 35 miles away.

A member of the Marconi company pointed out that there would be no difficulty in firing a gun from a spot 300 miles away. All the big guns used in the Passchendaele offensive could have been fired as easily from London as from Ypres. Paris could cause an explosion in Berlin by merely pressing a key. An airplane could wait until advancing enemy troops had reached a certain spot, and then explode a mine which would annihilate them.

By increasing the range of the instrument, this wireless man said, it would be a comparatively simple matter for a man sitting in an easy chair in London to cause an explosion in New York. All that would be necessary would be to leave in New York a receiver suitably hidden and connected with a mine.

Old Clothes Dyed Make New Garments

"Diamond Dyes" Turn Faded, Shabby
Apparel Into New

Don't worry about perfect results. Use "Diamond Dyes," guaranteed, to give a new, rich, fadeless color to any fabric, whether it be wool, silk, linen, cotton or mixed goods,—dresses, blouses, stockings, skirts, children's coats, feathers, draperies, coverings,—everything.

The Direction Book with each package tells how to diamond dye over any color.

To match any material, have dealer show you "Diamond Dye" Color Card.

The "Lion D'Arras"

Reuter announces the disappearance of one of the last of the war newspapers—the "Lion D'Arras." These war area sheets, which did so much to cheer and encourage the inhabitants of the stricken towns and countryside, will be looked upon in the future as one of the most interesting products of the war years. The "Lion D'Arras" appeared in the city at a time when the enemy was within a few hundred yards from the walls. The founder of the paper was the Abbé Guérin, who continued its editor during the 172 weeks of its existence.

The first vessel with the screw propeller was the Archimedes, built on the Thames in 1838.

Sentenced to Immediate Death

It happens every time you treat a corn with "Putnam's"—Corn does never return. Nothing so certain and painless as Putnam's Corn Extractor—try it. Fifty years' success guarantees its merit. 25c bottles at all dealers.

B. C. Dairy Produce

Great Opportunities for the Dairy
Farmer in the Province

Interesting statistics of the dairy industry in the province of British Columbia have recently been given by the minister of agriculture.

There are twenty-two creameries manufacturing butter in various parts of the province, he says; four cheese factories and three farm dairy factories for manufacturing fancy cheese. Of dairies handling or distributing milk or cream, or manufacturing ice cream, there are 4143.

During the past year the creameries produced 1,688,300 pounds of butter, valued at \$1,018,197. In addition to this there were 630,000 pounds of dairy butter, giving a total butter production valued at \$1,375,697. Apart from the 630,000 pounds of butter, the dairies supplied almost ten million gallons of milk and 217,000 gallons of ice cream. The output of the cheese factories was 304,502 pounds, giving in all a total dairy production valued at \$7,148,688.

Great opportunities still exist for the dairy farmer in the province, however, for British Columbia still has to import, among other things, the greater part of her butter supply, as is evidenced by the fact that almost \$3,000,000 worth of this produce alone were imported to supply the needs of her population.

Japan Denies Report

Story That She Gained Victory In
1904-5 "Preposterous"

London.—The Japanese Embassy here issued the following statement: "Referring to the news circulated in the last few days to the effect that Japan bought the victory over Russia in 1904-05, the Japanese embassy declares this is entirely groundless. Moreover we suspect there is some foul play involved in the rumor."

"The story, of course, is so preposterous and chimerical that it hardly deserves a formal denial; but in view of the fact that several papers printed it is well that it should be noticed."

Ladies Have a Clear Sweet Healthy Skin By Using Cuticura

Promote skin purity, skin comfort and skin health by making Cuticura your skin treatment and Talcum your every-day skin preparations.

Just a touch, any redness or roughness with Cuticura Ointment. Wash off in five minutes with Cuticura Soap and hot water, best applied with the hands which it softens wonderfully, and continue bathing a few moments. Rinse with tepid water.

Dry gently and add a few grains of Cuticura Talcum Powder, a fascinating fragrance for powdering and perfuming the skin.

Contrast this simple, wholesome treatment with tiresome massaging and manipulating.

Cuticura Ointment 25c and 50c. Talcum Powder 25c. Cuticura Soap 25c. Sold by all druggists, grocers, and dealers. Write for Free Book. Cuticura Company, Chicago, U. S. A.

GOVERNMENT CLYDE STALLION

Parties wishing to breed mares to the
Clydesdale stallion purchased by the Al-
berta Department of Agriculture "Charge
Masterpiece" 18297, during the season of
1920, will make application to S. O. Car-
lyle, Live Stock Commissioner, Depart-
ment of Agriculture, Edmonton, giving
name and registration number of mare.
A fee of \$25 will be payable at time of
service, and a further fee to be fixed by
the Clydesdale Committee and the Live
Stock Commissioner, will be payable when
mare proven to be in foal.

The location of the horse in the pro-
vince will be decided by this com-
mittee, and arrangements will be made
that the service fees in every case will
cover the freight to be equalized cost to
parties residing in different parts of the
province. Further particulars will be pub-
lished shortly, but parties desiring to breed
mares should make application at once.
The stallion will likely be ready to begin
the season about May 1st. The Commit-
tee and Live Stock Commissioner reserve
the right to revise the list of applicants
and make such rules and regulations as
may be deemed necessary regarding the
services of this stallion.

S. O. CARLYLE
Live Stock Commissioner.

DARING DUKE OF JASSY

STRANGE WAR-TIME ADVEN-
TURES OF KLONDYKE BOYLE.

Among the Romances of the Great
War Is the Career of the Cana-
dian Who Could Have Saved the
Russian Royal Family. If They
Had Trusted His Skill.

IF the Duke of Jassy were to come
over from Roumania and walk
down Yonge street, Toronto,
many a man would stop him on
the street and call him "Joe." Before
he became a Roumanian duke he was
known as Col. Joe Boyle or "Klon-
dyke" Boyle. He made money in the
mining boom, and early in the war
went to England at the head of two
hundred seekers after adventure. He,
at least, encountered plenty of it.

Many a Canadian met with great
adventures during the five years of
war, but it is difficult to imagine that
anyone went through so many stir-
ring scenes or played so forceful a
part as Col. Boyle did in Russia and
Roumania.

He operated most of the time as a
sort of free lance, going it alone, and
even in his boldest moments was
handicapped by the difficulty of hav-
ing to speak through an interpreter.
Yet he took up the cause of Rouma-
nia against the Bolsheviks of
Russia, and his exploits surpass any-
thing the mind of the dime novelist
has invented. References have been
made from time to time to the sen-
sational performances of Col. Boyle,
how he rescued fifty of the most
prominent Bolsheviks, saved them
from being shot, became a prisoner
with them, and finally got them away,
first from the Russians, and then
sailed with them from under the
guns of the Austrian fleet. The
audacity of his proceedings on all oc-
casions ensured their success. In
Chambers' Journal the story of Col.
Boyle's adventures is told by Douglas
Watson, and a sample of his quality
in action and his method of riding a
storm is shown in the following in-
cident which occurred once on his ar-
rival at Sebastopol:

As his train arrived it was sur-
rounded by a Bolshevik leader named
Spelro and a committee of sailors.
"What does this mean?" demanded
Col. Boyle.

Spelro explained that a lost news-
paper had just announced that Brit-
tain had made peace with Turkey;
the British fleet had entered Con-
stantinople, and was about to crush
the Black Sea fleet, for the purpose
of crushing the Black Sea fleet, as a
punishment for the Bolsheviks mak-
ing war on Roumania. They fore a
resolution had been passed to arrest
all allied subjects, so that for every
sailor of theirs killed they might exe-
cute ten allied prisoners. They im-
plied that Boyle would make a pleas-
ant addition to their list.

Summoning his interpreter, Boyle
addressed them in a very few words,
but with plenty of emphasis. He ex-
plained that the whole thing was un-
true, that the newspaper was owned
by German propagandists, and he
called for volunteers to go and de-
molish the said newspaper.

This appealed to the mob as an
idea of considerable originality, so
they adjourned to the newspaper of-
fice, arrested nineteen members of
the staff, and then wrecked the
place.

It was with such audacity and re-
sourcefulness as this that Col. Boyle
acted, over and over again extricating
himself and others from tight cor-
ners and turning the tables on those
who sought his King of Roumania
was asked by the King of Roumania
to rescue the Russian royal family,
overcame all obstacles, and "nothing
but the unwillingness of the ill-fated
royalties to venture from their
prison-palace in the Crimea stood in
the way of their freedom." No doubt
some day the complete story of Col.
Boyle's adventures will be published.

Boy and the Boss.

A boy's employer can be a valuable
friend, says Forbes Magazine. The
average boy craves good, strong
friendship, and particularly he wants
to appreciate the friendly interest of a
man whom he admires and respects.
Boys like to be noticed. Naturally
affable and warm-hearted, they are
quick to sense the lack of friendly
feeling on the part of anyone with
whom they come in contact. Too
often a boy and his boss are perfect
strangers. The boss is too busy to
take notice of the boy. He issues
orders in a cold-blooded manner and
expects perfect obedience. He does
not try to encourage the boy; he does
not try to gain his confidence.

There is no excuse for such a rela-
tionship. The employer is not only
failing to do his duty, but he is
showing poor business judgment.
Only when he becomes the friend and
counselor of the boy does he really
get the boy's best efforts. Not until
the boy looks upon his employer as
a friend will he work with that aban-
don and enthusiasm which is always
prompted by love and respect.

FRIDAY MARCH 26th. 1920 Alberta

SPORTS

By the signs of the times, the
back of winter is broken. Snow
is going fast and there remains
but a little time ere the land
will be dry. The majority of us
have our work planned out for
the coming year, but how about
our play. It is the usual state
of affairs in a small community
such as ours, to leave the or-
ganization of our sport clubs,
until the season is at least half
spent. Why not take time by
the forelock and get busy on
the organization of various
clubs now? The Tennis and
Baseball clubs could meet and
decide on the different improve-
ments to be made. Rumer has
it that another court is to be
laid out this summer for Tennis.
Well, there is nothing to stop
that being arranged in a. Then
by the time the court was ready
the players would be ready too.
For the baseball we offer as a
suggestion, that arrangements
be made with the neighboring
towns, such as Consort, Coronation,
Provost and Major and
other similar places for the lay-
ing out of a schedule of games
to be played, both at home and
away. By doing so, a game is
practically assured for the play-
ers at a particular time of the
week. This time is known for
months ahead, and therefore
the players are always ready to
go, or arrangements made for a
substitute.

Talking about sport, why not
renew the "Monitor Athletic
Association"? This organization
could be composed of those in-
terested in good clean sport, and
the other clubs could have their
own individual officers and be
governed by them. In cases of
dispute, the argument could be
referred to the parent Associa-
tion, and their word accepted.
The executive of the Athletic
Association should be composed
of some of the officers of the
minor clubs, elected by the
members themselves. However
this is only a suggestion. The
big thing is to get ready for
sport. The wholehearted sup-
port of this paper is behind all
good clean sport, and we want
to see everybody interested in
something besides the crop. If
the secretaries of the existing
clubs are so desirous, the News
will publish any item of interest
to the members of the club at
any time, with no charge

Waving the Red Flag In Our District

With the opening of Spring it
is learned that the King Pins of
the Gopher tribe have joined
hands in an army of destruction.
It is up to the farmers to kill
them off. Down with the Reds.
Ever-Ready Gopher poison will
do it. Strychnine, the most
deadly poison, and all other
makes can be secured at your
local Drug Store.

Fresh Formaldehyde just in.
Full line of Stationery.

Care must be taken this
spring in conditioning the horse
for the Spring Drive. They are
left weak and run down after
the hard winter—we carry a
full line of good conditional
powders and Stock Foods.

THE KENNEDY DRUG COMPANY.

Why The Printer

Lost His Job

Out in Missouri a farmer gave
a printing office an order for
sale bills. The job was promised
for June 30. The date being
the last day before the prolonged
drouth started, the printer
decided to take a few parting
drinks. He took several. Then
he happened to remember the
bills that were promised for de-
livery that day and staggered
to the office to get out the job.
The farmer called for the bills,
paid for them, took them home
and the next day started to put
them up. This is what he read
when he came to the list of
articles offered for sale.

Twenty-five cows broke to
work, 41 head of cultivators
coming in soon, 10 head of
shoveling boards and scoops by
side, 8 piano mares, 120 rods of
canvas belting better than new
De Laval cow with ice cream
attachment, McCormick binder
in fast, Poland China bobbed,
due to farrow in April, 14 head
of chickens with grass seed at-
tachments in good working
order, 2 J. I. Case riding heifers
good as new, spraying outfit
can be ridden by children, 15 billi
goats, 70 bushels capacity with
spraying nozzle and other at-
tachments, many other articles
too numerous to mention, which
I expect to get at night between
now and date of sale.

Comment on Current Events

The world was given a surprise on Saturday, March 13, by the sudden outbreak of a counter-revolution in Germany which had an immediate initial success, the Ebert Government fleeing from Berlin, first to Dresden and later to Stuttgart. This counter-revolution was engineered by the militarists and the reactionary Prussians, and a new "Imperial" Government set up in Berlin under the chancellorship of Dr. Kapp, who was one of those who opposed the armistice in November, 1918, and wished to continue the war after the abdication and flight of the Kaiser. He is a Prussian of the Prussians. General von Luetwitz, another Prussian, and one of the military governors of Belgium during the German occupation, was named commander-in-chief of the army.

In an endeavor to defeat the aims of the military party, and a possible restoration of the monarchy, the Ebert Government called upon the Socialists and workers of Germany to declare an immediate general strike and by tying up all means of transportation, coal mines, industries and business generally, cripple and nullify all efforts of the new Government. This was done, and with some effect, but at the time of writing it remains to be seen whether the horrors of civil war can be averted. Conflicts between the troops and the populace are reported from a number of places. Prussia may side with one party, and other states, like Saxony, with the other, thus leading to the break-up of the German confederation.

Political circles at Ottawa are all agog over the decision as to naval policy to be reached by the Government as a result of the recent report by Admiral Lord Jellicoe. In his report Lord Jellicoe declared emphatically for the establishment of a Canadian navy, and discarded the old idea of contributions of either ships or money to the British Admiralty. He submitted several alternative programs for a commencement in the work of creating a Canadian fleet, these varying from one calling for an annual expenditure of \$25,000,000 a year to one providing for an expenditure of only \$5,000,000 annually. Which of these to adopt, or whether

to proceed with any of them at the present time, is the problem before the Government and Parliament. It is generally agreed that sooner or later Canada must, in view of her new national status, and the development of a large merchant marine of her own, provide protection for her own coasts and sea-borne commerce, but the question upon which opinion is sharply divided, both in the Cabinet and in Parliament, is whether a start should be made now, or the whole question postponed until national finances are in better shape, and further knowledge is obtainable in regard to the plans of other nations. One thing is generally admitted, and that is that Canada cannot, with self-respect, continue to rely solely upon naval protection provided by the already overburdened British taxpayer.

Developments in the controversy in the United States Senate over the question of ratification of the Peace Treaty and acceptance by that country of full membership in the League of Nations point to a second refusal on the part of that body to ratify, with the result that the whole question will become an issue in the Presidential elections next November, thus largely overshadowing all purely domestic issues. Canada is deeply interested in the outcome, because of the challenge made to Canada's right to full membership and voting powers in the League of Nations by the Lenroot amendment. The Canadian Government has made it clear both to Great Britain and the United States that it will never agree to any impairment of its rights as a member of the League, that it will refuse to accept the Lenroot amendment, and that if it is accepted by other nations, Canada will be obliged to withdraw from the League. Australia, New Zealand, South Africa and the other overseas Dominions of the Empire support Canada's stand, and it is inconceivable that Great Britain will do otherwise than support the contentions of the Dominions, which are founded on right and justice. In proportion to population and wealth, Canada did far more towards winning the war than did the United States, and by the sacrifices of her people, the heroic deeds of her soldiers and her outpouring of blood and treasure, not only in the last year of the war, but from the day Germany flung down a challenge to civilization, this Dominion won for herself a place of equality with all nations. Canada will never relinquish the rights she has won for herself, and unlike so many people in the United States, Canadians do not shrink from acceptance of the responsibilities which full and unrestricted membership in the League of Nations may impose upon them.

Minard's Liniment Relieves Neuralgia
Petroleum has been known from ancient times. It was put to practical use as a fuel around the Caspian Sea much earlier than elsewhere. Under the name of "Sicilian oil," it was burned in lamps in Rome in the days of Pliny. It entered into use in the arts of China centuries ago, and was discovered by the early settlers in America.

Minard's Liniment Relieves Neuralgia

In Canada After Wood Pulp

Hall Caine Is Here to Obtain A Supply of Wood Pulp For English Newspapers
Hall Caine, of London, England, son of Sir Hall Caine, arrived on the steamer Empress of France. He is in Canada in the interests of a group of seven of the largest newspapers in England and is here to obtain a supply of wood pulp for the English newspapers. He said it is his intention to obtain, if possible, a block of properties for the cutting of wood pulp and also to arrange for the purchase of wood pulp shipment to England, where it would be manufactured.

COLDS, CATARRH RELIEVED

IN FIVE MINUTES
Consumption can be traced back in most instances to a bad cold or catarrh that was neglected. Don't court this white plague—ensure yours.
Catching Coughs, Croup, Whooping Cough, Sore Throat, Hoarseness, Bronchitis, Asthma, Hay Fever, Eczema, and all skin diseases.
Catharhose, a pleasant antiseptic medication that is inhaled into the lungs, nasal passages, throat and bronchial tubes, where it kills disease germs and prevents their development. Catharhose heals inflamed surfaces, relieves congestion, clears the head and throat, aids expectoration, and absolutely cures Catarrh and bronchitis. Quick relief, guaranteed, pleasant to use. Get the \$1.00 outfit of Catharhose, it lasts two months.
All dealers or, Catharhose Co., Boston, Ont., Canada.

small size, 50c.

Trade Office in Russia Closed
Ottawa.—Owing to the chaotic conditions prevailing in Russia, the Canadian Government has decided to close the office of the Canadian Trade Commissioner at Vladivostok. This closes the last of the Canadian trade offices in Russia, the other two at Petrograd and Omsk having been closed owing to the advance of the Bolsheviks. Some unusually valuable reports have issued from the Vladivostok trade commissioner's office from time to time.

WHEN NEURALGIA ATTACKS NERVES

Sloan's Liniment scatters the congestion and Relieves pain

A little, applied without rubbing, will penetrate immediately and rest and soothe the nerves.
Sloan's Liniment is very effective in allaying external pains, strains, bruises, aches, stiff joints, sore muscles, lumbago, neuritis, sciatica, rheumatic twinges.
Keep a big bottle always on hand for family use. Druggists everywhere. 35c, 70c, \$1.40. Made in Canada.

Keep it handy

Which?
At an amateur performance an artist gave imitations of several popular actors, one of whom happened to be present.
Afterwards the ambitious amateur sought an introduction to the star and asked hopefully:
"Did you see my imitation of you?"
"I did," replied the great man promptly.
"Then, sir," persisted the aspiring youth, "may I ask you to give me your opinion of my art as shown in that impersonation?"
"Well, my boy," the great man said, "one of us is rotten!"
There are two sides to every question, but marriage is often a one-sided affair.

The Beauty of Fine Silverplate
THE grace and beauty of fine silverplate are appreciated by discriminating people who buy thoughtfully the things that are to fit intimately into their home life. For the best value, The Silverplate of William Rogers and his Son has long been highly esteemed and known as "The Best at the Price"
Made and Guaranteed by Wm. Rogers Mfg. Co., Ltd. NIAGARA FALLS, ONT.
The Silverplate of William Rogers and his Son

The Memory That Failed
A well-known preacher was giving one of his stirring discourses, when he remarked:
"Ah! that reminds me of something I shall never forget."
Then he stopped and thought, and, after thinking and waiting a long time, greatly to the astonishment of the congregation, he said:
"Dear me, I can't think what it is!"

SPRING WEATHER HARD ON BABY

The Canadian Spring weather—one day mild and bright; the next raw and blustery, is extremely hard on the baby. Conditions are such that the mother cannot take the little one out for the fresh air so much to be desired. He is confined to the house, which is often over-heated and badly ventilated. He catches cold; his little stomach and bowels become disordered, and the mother soon has a sick baby to look after. To prevent this an occasional dose of Baby's Own Tablets should be given. They regulate the stomach and bowels, thus preventing or relieving colds, simple fevers, colic or any other of the many minor ills of childhood. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

A good reputation is a valuable possession—but you can't mortgage it.

Minard's Liniment Cures Dandruff.

An old bachelor is a man who admits that he doesn't think he is smart enough to take care of anybody but himself.

ONLY TABLETS MARKED "BAYER" ARE ASPIRIN

Not Aspirin at All without the "Bayer Cross"

BAYER
For Colds, Pain, Headache, Neuralgia, Toothache, Earache, and for Rheumatism, Lumbago, Sciatica, Neuritis, take Aspirin marked with the name "Bayer" or you are not taking Aspirin at all.
Accept only "Bayer Tablets of Aspirin" is an unbroken "Bayer" cross.
There is only one Aspirin—Bayer's—You must say "Bayer" Aspirin is the trade mark (registered in Canada) of Bayer Manufacturing of Monheim-on-the-Rhine. While it is well known that Aspirin makes Bayer Tablets the most reliable, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross".
package which contains complete directions. Then you are getting real Aspirin—the genuine Aspirin prescribed by physicians for over nineteen years. Now made in Canada. Handy tin boxes containing 12 tablets each but a few cents. Druggists also sell larger "Bayer" packages.

FOOD FORTIFIES
against exhaustion and illness—if it's the right kind of food.
Grape-Nuts
is easily digested and with cream or good milk is a well balanced ration that builds tissue and increases strength of body and mind.
"There's a Reason"

Appear At Your Best—Instantly
If you receive a sudden invitation you can feel confident of always appearing at your best. In but a few moments it renders to your skin a wonderfully pure, soft complexion that is beyond comparison.

FARMERS BREED PERCHERONS

The only breed of draft horses ever shipped back to England from Canada for breeding purposes were Percherons. The greatest breed of draft horses in North America are Percherons. The safest investment in draft horses today is Percherons. A profit to own—a pleasure to handle. You will make no mistake in your horse breeding this year if you use a Percheron sire.

WRITE FOR INFORMATION AND LITERATURE. Let us put you in touch with the best Canadian Percheron Breeders. Mention this paper when writing.

The Canadian Percheron Horsebreeders' Association
William H. Wilson, Secretary (Desk A), Calgary, Alberta

BAR U AND NAMAKA FARM PERCHERONS

The largest stud of the Purebred Percherons in the World. The Bar U Percheron breeding farm, established in Canada, has the finest farm on the American continent from which British horsemen have selected Percheron breeding stock to establish studs in Britain.

Do not let the British breeders come to Canada and carry off all our best foundation stock. Do not be satisfied with the cheap cull stallions brought in by irresponsible dealers and stallion peddlars from the United States, when you can buy the best individuals of the best breeding raised right here in Alberta by men that have been in the breeding business for 25 years, and expect to remain in the business. We have seventy-four Percheron Stallions of our own breeding now on hand to select from. You can see their sizes and dams, and if you cannot choose one from the lot in suit to you, we will give you every assistance in our power. Write for prices or come to Calgary, Alberta, and we will meet you and show you the stock at any time—address:

Sports Among
Citizen Soldiers

Keenest Rivalry in Athletics Will Be Encouraged Throughout Victoria.

Australia's cadets, the citizen soldiers who are trained under her compulsory home defense system, have a warm-hearted friend in Brigadier-General Brand, state commandant and one of the most distinguished Australian leaders in the late war. General Brand recognizes that routine is larksome, and he is popularizing senior cadet work by combining with it sports programs whereby the keenest rivalry in athletics will be encouraged throughout Victoria. General Brand's scheme has been enthusiastically welcomed by the boys and by citizen's committees, who have joined heartily in the sporting competitions between battalions, brigades and training areas. This new way of making soldiers means the introduction of a common interest among the units, skill, discipline and clean rivalry.

Egg-Laying Contests

Announcement Made Calling Start for November 1st

Antouncement has been made by F. C. Elford, Dominion poultry husbandman, that egg-laying contests will be continued next year by the experimental farm system throughout Canada. These contests will start on Monday morning, November 1.

The contests in the West will be held at the experimental farms and stations at Brandon, Man., Indian Head, Sask., and Lethbridge, Alta. The Ottawa contest will be for the Dominion and the others for the provinces in which they are held.

An Obliging Editor

Editor: With pleasure. Call tonight with the ambulance and I'll have a poet ready—American Legion Weekly.

HOMELESS!

Constipation, Headache,
Colds, Biliousness, driven
out with "Cascarets"

Drive away those persistent enemies of happiness—biliousness and constipation. Don't stay headachy, sick, tongue coated, sallow and miserable! Never have colds, indigestion, upset stomach, or that misery-making gas. Feel splendid always by taking Cascarets occasionally. Cascarets never gripe, sicken or inconvenience you like Calomel, Salts, Oil or nasty, harsh Pills. They cost so little and work while you sleep.

Reconstruction in France

Large Part Will Be Restored By September

The renaissance of France, after her devastation by the enemy, is beginning to be manifest, and when the "grape is full the vineyards will smile" and a large part of France will be itself again. So the French peasants are saying in their spring meetings. Facts support the optimism of their outlook. Out of 1,403 miles of railway lines destroyed during the war, France has made 1,267 1/2 miles ready for use by the end of September. Out of 1,160 destroyed bridges, she had reconstructed 657. Out of 672 miles of canals, 437 1/2 miles were ready for use by the end of August. Out of three thousand agricultural instruments destroyed or removed by the German, two hundred thousand had been replaced. Out of 550,000 houses destroyed, 80,000 have been sufficiently repaired to be utilized; 16,225 huts have been provided and 60,000 were in process of construction by the end of the past year. Out of 6,950 square miles of tillable land devastated, 1,540 square miles have been made fit for cultivation at the same date, and 74 million cubic meters of trench excavation have been filled in.

A traffic policeman in Chicago ordered the first automobile off Michigan avenue in 1895.

A wise man has all the money he needs, but a fool never has enough.

Minard's Liniment for sale everywhere.

AFTER EFFECTS
OF INFLUENZA
OFTEN SERIOUS

Victims Are Left Weak, Tired and Mentally Depressed — Tonic Treatment Strongly Recommended

No pestilence in years has caused more widespread suffering than the epidemic of influenza, which swept over Canada in the fall and winter of 1918-19, and again this winter. The danger from this trouble is seldom over when the characteristic symptoms, the fever, headache and the depression of spirits have passed away. Influenza leaves behind it weakened vital powers, thin blood, impaired digestion and over-sensitive nerves. Men and women who were robust before stricken with influenza find their bodies racked by pains previously unknown to them. This condition is due to an abnormal thinning of the blood and leaves the system an easy prey to other serious troubles. This is the time when the vegetable matter in influenza should build up the blood with a reliable blood-making tonic such as Dr. Williams' Pink Pills. Weak blood means impoverished nerves, impaired digestion, a feeling of tiredness after even slight exertion, and sometimes even more serious symptoms. When the blood regains its rich red quality the nerves recover their strength and the organs of the body function naturally. In fact, building up the blood will vitalize the whole system.

The experience of Mr. Andrew Marty, Bathurst, N.B., will prove of value to a host of influenza sufferers who still suffer from the effects of the disease. Mr. Marty says:—"The new life and consequently new hope brought into my life through the use of Dr. Williams' Pink Pills is almost beyond my power of expression. Following a severe attack of influenza in 1918, I found myself rapidly falling in health, and was naturally much alarmed. I began to lose in weight, could not eat, did not sleep well, and in a word I was reduced to a mere shadow. I was forced to discontinue work because of my weakened condition, and things had a very blue outlook. I tried a number of suggested remedies, but without benefit. And then one day Dr. Williams' Pink Pills were suggested to me. I acted on my friend's advice, began taking these pills, and soon felt an improvement. Every day I seemed to grow stronger, and after four weeks' treatment I felt fully restored to my old-time health. From my own experience I feel that if given a fair trial, there is no medicine superior to Dr. Williams' Pink Pills in building up a run-down system."

Dr. Williams' Pink Pills are a tonic, not a stimulant. They build up the blood, and not only the disastrous after-effects of influenza—but also troubles due to poor blood, such as anaemia, rheumatism, indigestion and the generally worn-out feeling that affects so many people, disappear. You can get these pills through any dealer in medicine, or by mail at 50 cents a box, or six boxes for \$2.50, from The Dr. Williams' Medicine Co., Brockville, Ont.

Scotch Clydesdales for Alberta

A shipment of purebred Clydesdale stallions has just arrived in Calgary after being imported from Scotland. These have been purchased by Andrew Dollar, a well-known horse breeder of Southern Alberta, and have been shipped to add to his already valuable stud at High River.

Minard's Liniment Cures Burns, Etc.

Wild horses were abundant in Europe in the polished-stone age.

Zinc was known to Europe for 500 years before a method of extracting the metal from the ore was discovered.

Could Not Sleep

Mr. Earnest Clark, Police Officer, 338 King St., Kingston, Ont., writes:

"For three years I suffered from nervousness and sleeplessness. I believe my condition was brought about by overwork. I had frequent headaches, neuralgic pains and twitching of nerves and muscles. I had indigestion, was short of breath and easily tired. I commenced a treatment of Dr. Chase's Nerve Food, and seven boxes of this medicine cured me of all my symptoms. I am now feeling one hundred per cent. better than I was, and have to thank Dr. Chase's Nerve Food for the good health I am now enjoying."

Monitor Alberta

News Of The World

Canada's population to the square mile is 2, that of Great Britain 471, France 190, United States 33. According to the 1911 census, Prince Edward Island is the most densely populated Province of Canada with an average of 42.91 to the square mile, Nova Scotia comes next with 22.98. New Brunswick third with 12.61, while Alberta and British Columbia have 1.47 and 1.09 respectively, to the square mile.

Alberta is 750 miles long 400 miles wide at the widest part. The area is 253,540 miles, or twice that of the British Isles. It is estimated that 90,000,000 acres can be cultivated, of which at present between 10 and 15 per cent is being tilled.

The Dutch Government for the second time refused to deliver the former German Emperor to the Allies for trial. In a note addressed to David Lloyd George, the British Premier, however, the government promised to take all necessary measures to minimize the liberty of Wilhelm and prevent him from endangering the world's peace.

The Anglo-French credit loan made in the fall of 1915, was for \$500,000,000, and was underwritten by an American syndicate of prominent banks. The loan was five years, payable on maturity in dollars. It bears 5 percent, and the joint credit of Great Britain and France was accepted in lieu of collateral. The money remained in America and was spent solely for goods purchased there during the war.

Lan Macpherson, Chief Secretary for Ireland, speaking in the House of Commons. It is obvious we are up against a tremendously dangerous situation in Ireland. He added that the Sinn Fein had at least 200,000 men prepared to commit murder at any hour of the day or night, and asserted he had received letters from Royalists in the west and south of Ireland begging the Government to take steps to get them out of the country.

The British ambassador at Washington will hereafter receive £20,000 yearly. His salary will be £2,500 and entertainments allowance of £17,500. Premier Lloyd George made this announcement in the House of Commons.

A meeting of the Executive of the local G. W. V. A. was held in the Rest Room last Monday evening. It was decided that the Rest Room would in future be kept open every day in the week from noon on.

Mr. Farmer

If you are going to raise calves without Milk, use your own intelligence in selecting the product you are going to buy. Our Royal Purple Calf Meal contains about 10 1/2% Fat, and fat costs in any market, nearly three times as much as Proteins; but that is not the question that should be uppermost in your mind in purchasing a substitute for milk. We tell you without fear of contradiction, that you cannot make a substitute for milk with less than 10% Fat, and if you use over 20% Protein the meal is hard for the calf to digest.

LOCAL ITEMS

Farmers. Last week we paid 15 cents for hides. This week we are paying 17 cents. This is possible due to the fact that we have made arrangements with a hide-buying firm, for a guaranteed price, for every week. It will be to your interest to bring your hides to the Monitor Meat Market.

There is some talk at present re the formation of a Gymnastic Club for Monitor. Those that have been spoken to concerning the matter have been decidedly in favor of the affair, and it is extremely probable that steps will be taken in the immediate future to have things started right. If any person has any suggestions, the News will be very glad to publish the same.

Mr. E. C. Melvin completed a good sale on the 22nd inst, and will in future reside in Stettler. Bidding was brisk, and the sale went off with a bang in spite of the inclemency of the weather.

A. Grace and H. Crisp received this week four Barred Plymouth, Rock Rooters of a celebrated fancy laying strain.

We regret to report that Hugh MacDonald, one of our returned soldiers, who recently accepted a position at J. H. McGirr general Store, was taken suddenly sick on Tuesday afternoon. The Local Branch of the G. W. V. A. have since made the necessary arrangements for his entry into the Military Hospital at Edmonton under the supervision of the Soldiers Civil Re-establishment Department. His speedy recovery is earnestly hoped for.

ALERT ALTARIO

The stork has had an exceptionally busy week of it in this little town and district, leaving a fine boy to Mrs. Counts of Compean and to Mrs. J. McLeod a little daughter. Mrs. H. Wand, too, has a girl—to all three ladies we offer hearty congratulations. Good old stork. In spite of the H. C. L. he keeps sending little mouths to feed and from what we can see of it we shall have to enlarge our school and get us another teacher.

The long postponed concert will at last take place on Friday the 26th, when the Altario Dramatic Society will present 2 sketches—"Courtship under Difficulties" and "Uncle Joes Will". Both pieces are exceedingly humorous and a full house is hoped for. Proceeds for the Red Cross Hospital. Free lunch provided by the W. I.

We have been in receipt of many bits of News in "Arrow" style but know there is little use in sending them to the "News" which only takes notice of the discoveries of Oil, etc., and would altogether ignore the small fry that our late editor used to dish up for our delectation. Sorry boys—but if you can be did—you must live in hopes that the Arrow may fly again some day, and then you will see your name in big print.

Inspector Gray was in town this week, visiting the school. Mr. McLean of the Soldier Settlement Board passed through town.

Allies Occupy Turkish Capital Without Trouble

Constantinople.—The city was occupied by allied forces under General Sir George E. Milne, of the British army. This long-looked-for military demonstration by the allies against Turkey was carried out with only one untoward happening, a serious clash at the war office, where the Turks resisted the allied troops.

The excitement caused by the occupation quieted down before darkness, which brought absolute calm.

The allies have occupied the ministry of war and navy, and assumed control of posts, telegraphs and telephones, which have been temporarily suspended. Shipping also has been suspended.

The landing of occupation forces was carried out under guns of the formidable fleet anchored in the Bosphorus.

The British dreadnought Benbow was moored at the Galata Quay, her guns trained on Stamboul. Another man-of-war faced the city in the Golden Horn, while all other warships in the Bosphorus were standing by with their decks cleared for action.

Except in the instance stated, however, there was no resistance. The population, in fact, showed little alarm, nor was there any sign of panic except in one section of Stamboul, as commanders of the allied troops brought their forces ashore.

These forces included four thousand bluejackets and marines from British warships and contingents from all the allies represented. Indian detachments, having Moslems on their rosters, were among the troops taking part.

Comprehensive military and naval plans had been made to carry out the allied measures and precautionary steps taken. A number of Turks and other persons, regarded as possible disturbers of the peace, were arrested, including the commander of the 10th Turkish division.

The proclamation was eagerly scanned by curious crowds, which after the landing took place wandered about the streets in a dazed manner. The French patrolled Stamboul with Senegalese troops; the British guarded Pera, the suburbs northwest of the Golden Horn; while Italians guarded Scutari, the portion of Constantinople on the Asiatic side of the Bosphorus.

The flutter that occurred in Stamboul as the troops marched in was by shopkeepers near the war office, where the clash occurred. They closed their shops in their first fright, but speedily reopened them. The allies are declared to believe their measures have provided amply for maintenance of security and order in Constantinople, and consider it questionable whether even the so-called Nationalist forces in Anatolia are in a position to attempt anything serious.

She's up and at Her Work Again

THAT'S WHY MRS. KARGUS RECOMMENDS DODD'S KIDNEY PILLS

Lyndoch Lady states that she was so weak she could not get out of bed till she found relief in Dodd's Kidney Pills.

Lyndoch, via Wolfe, Ont., March 22.—(Special).—"I feel like telling everybody about what Dodd's Kidney Pills did for me." This is the joyful exclamation of Mrs. Frank Kargus, a well-known and highly respected resident here. Mrs. Kargus gives splendid reasons why she is so enthusiastic over Dodd's Kidney Pills.

"I don't know the cause of my trouble," she says, "but I know it dragged along for over a year. I had a bad pain in my back and I was so weak that I could not get out of bed. My heart troubled me very much and my sleep was broken and unrefreshing."

"I was always tired and nervous, and sometimes I was so bad I thought I could not live much longer. I tried two doctors and they did not do me much good, so I tried Dodd's Kidney Pills."

"They have done me a lot of good. I can do my housework again and I am getting along fine."

Mrs. Kargus' troubles are all symptoms of diseased kidneys. That's why she got that prompt relief. Ask your neighbors if Dodd's Kidney Pills do not relieve all kidney ills.

Japs Going To South America

In Future Will Avoid the U.S. for Settlement

Honolulu.—Japanese emigrants in the future will avoid United States territory, going instead to South America, according to a Tokio wireless message picked up by the Japanese Yakuza. The message, quoting a statement by M. Nagata, president of the immigration association of Tokio, indicated Japanese emigration to South America probably will centre in Brazil, where a Japanese colony is planned. Nagata is going to South America in the interests of Japan. It is believed that many Hawaiian Japanese will go to Brazil, according to statements of leading Japanese here.

Increase Guard On Ex-Kaiser

Dutch Home of Former German Emperor Has Been Turned Into Prison Fortress

Amsterdam.—Reinforcement of the Dutch guard at Von Bentinck's castle, which since the middle ages has been protected by moats and drawbridges, has made the former kaiser's refuge a veritable prison fortress, capable of defence even in the unexpected event of attack by raiders desiring to free the exile. The castle is situated in a big square. The four sides are posted, while two of them have additional walls.

Constables and military police patrol the roads night and day. To the right of the main entrance is a small building in which rest reinforcements. Here sentries are on guard. Besides this main gateway, a distance of 130 yards is another gate, barring an inner driveway to the drawbridge. Here sentries are stationed. Still farther on, where the road bends at another gate, there is also a guard. Then turning to the right, a driveway leads to the terrace on which the castle stands. Police patrol this terrace.

Beyond the dyke in the rear of the castle is a meadowland crossed by ditches and hedges, and in the meadow are patrols particularly warned to guard against the landing of airplanes. So strict has the guard over the former monarch become that J. B. Kan, general secretary of the Dutch government, charged with guarding the Hohenzollerns, had to produce a pass before being admitted.

Sir Robert's Health Is Improving

Ottawa.—Latest information reaching Ottawa as to the health of Sir Robert Borden is to the effect that the Prime Minister is rapidly regaining his former health and recovery is being maintained. It is stated he will likely be in Ottawa about May 1. As the session is expected to continue for a couple of weeks after that date, the expectations are that the premier will take his place in the Commons Chamber before prorogation.

Armenians Ready to Help

Adana, Asia Minor.—The Armenians here have closed their shops and informed the French that they will send armed Armenians to the relief of Hadjin, northwest of Marash, where the Turks are reported to be terrorizing the populace, if the French do not dispatch troops. The villages of Romo and Yebakalara have been overrun and the Armenian inhabitants have fled to Hadjin.

Coal Located at Jasper Park

Winnipeg.—Blimmaous coal deposits totalling nearly 30,000,000 tons, and lying within three feet of the earth's surface, so that it may be loaded on cars as cheaply as gravel can be loaded in a ballast pit, have been located near Jasper Park, according to Geo. E. McDonald, general manager of the Pacific Coast Eastern Railway, who was recently in the prairie provinces on a business trip.

The Persian Gulf is nowhere more than fifty fathoms deep.

To Preserve Supremacy Of The British Navy

Long Declares Nation Will Keep Up Power According to Other Countries

London.—Walter Hume Long, First Lord of the Admiralty, told the House of Commons that the government was firmly adhering to the traditional policy that the British navy should not be inferior to the navies of the other powers. Then, alluding to the United States as the only country whose navy approached that of Britain in strength, he said that the idea of competition in armaments between the United States and Great Britain was repugnant, adding: "We hope and believe that if there is any emulation between us, it is likely to be in the direction of reducing that ample margin of naval strength, which we alone possess over other naval powers. This is the foundation of the British naval policy."

Bavarian Diet's New Premier

Kahn Will Fill Position Until New Premier Is Chosen in Next Election

Copenhagen.—According to a Munich dispatch received here, the Bavarian Diet has elected Dr. Kahn premier. Kahn declared himself to be a representative of people's sovereignty and said he would hold the place for the premier who is to be elected by the Diet in the next election.

The various political groups, the dispatch continues, declared that executive powers had been restored to the civil authorities; that the Imperial and state constitution would be inviolably respected, and that the full liberty of officials, workers and employees to unite would be protected.

Visit Ex-Kaiser

London.—A number of Germans of high rank have visited Amersfoort during the last few days, the Central News correspondent at Amsterdam reports. It is not known whether they have been able to communicate with former Emperor William. It is declared, however, that none of them were allowed to talk personally with the former ruler.

Fuel Oil Contracts

Washington.—The shipping board announced that contracts had been signed for more than 12,000,000 barrels of fuel oil for delivery to Atlantic and Gulf ports during the next six months. The contract prices ranged from \$1.27 to \$1.56 per barrel.

New Government Building in B.C.

Vancouver, B.C.—It is reported that the Dominion Department of Public Works will soon commence the construction here of a federal government building, in which to house the various government offices. It will cost \$1,000,000.

Like a Tidal Wave

Heart Disease and Nerve Troubles Sweep the Country

Probably at no period in the world's history have heart and nerve troubles been so prevalent as they are today.

The heart can't stand the stress and strain of this busy, bustling age, and the care and worry, the anxiety and activity of business life constitute a serious drain on the nervous system.

The business of this work-a-day world goes with such a rush that the stoutest hearts and strongest nerves break down under the strain.

On the first approach of any breakdown of the system, Milburn's Heart and Nerve Pills should be taken. The reconstructive power of these pills on the heart and nerve system is simply marvellous.

Mr. W. Wright, Hopewell Ave., Ottawa, Ont., writes: "After suffering for some time with my heart, I consulted a number of doctors, but got no relief. However, I read what Milburn's Heart and Nerve Pills had done for others, who had the same symptoms, and thought I would give them a trial. Believe me, six boxes cured me completely. I am feeling fine now, and can attend to my work every day. I can recommend your pills to anyone suffering as I did."

Price 50c a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

W. N. U. 1308

Kapp Regime Is Ended After Short Control

Opposes Franchise For Jap Veterans

B.C. Politicians of All Parties Protest Against Dominion Proposal

Victoria, B.C.—The government's proposal to grant the franchise to Japanese veterans of the Canadian expeditionary force is arousing strong protest from members of all shades of politics in the house, and when the debate on the motion for the second reading of the new Elections Act was proceeded with, it was made clear that when the bill reached the committee stage a determined effort to eradicate the provision will be made. W. J. Bowser, opposition leader, will move an amendment striking out the provision, and he will receive support from some government members, as well as the soldier representatives, the latter being against it.

Paris Threatened With Novel Strike

Citizens' Walk and Chauffeurs Will Walk Out

Paris.—Chauffeurs threaten Paris with a novel strike, their demand being a diminution of fares. Since the law calling for increased taxation went into effect a few days ago, a long line of taxis have been idle, the citizens having taken to walking. Chauffeurs claim their income has been decreased 50 per cent. because of the recent increase in their rates of 100 per cent, and they demand that the rates be brought back to the former scale.

Allies Forces On Rhine

American Army of Occupation in Germany Numbers 14,000

Coblenz.—The American army of occupation, numbering 14,000 men, is being issued full field equipment under orders issued before the German revolution. There have been no movements to reinforce any position or any military activity, except those concerned with policing the occupied territory. The allied forces along the Rhine are estimated at slightly more than 100,000 men.

Pacific Coast Airplane Race

San Francisco.—The Pacific Aero club has made an announcement for the first sanctioned air race ever held on the Pacific coast. It will be the Del Monte air classic on April 21.

Frederick Porter, chairman of the contest committee, has mapped out the air route and conditions for the race, which will be from San Francisco to Del Monte, with no stops. The return will be over the same route. The distance is approximately 100 miles each way.

Spaniards Seek Hidden Treasure

Madrid.—The newspapers are demanding of the government credit for the commencement of excavations in the province of Leon, to unearth Roman cities, which are believed to be buried there, and which tradition says contain great quantities of jewels and money and antiquities of great value. The papers desire that the task be assigned to experts who would be capable of making a success of it.

Boy Killed By Classmates

Pueblo, Colo.—Five schoolboys, arrested in connection with the death of Ted, the 11-year-old son of Mrs. H. A. Kuykendahl, confessed according to the police, that they kicked the boy to death because they were jealous of his high standing in the school the boys attended.

Execution of Alvarez

Agua Prieta, Sonora, Mexico.—Jesus Alvarez, formerly a colonel in the army of Francisco Villa, and more recently operating as a bandit and playing a lone hand in the central and southwest sections of Sonora, has been executed, by Carranza soldiers, according to military authorities here.

Berlin.—After holding the reins of power for less than five days, Dr. Wolfgang Kapp, self-appointed chancellor and dictator, has retired from office and control. He resigned, and an official communication explained that the chancellor considered his mission fulfilled when the old government decided to meet the most essential demands addressed to it.

He was also moved to this action by the extreme necessity of the Fatherland, which demanded union against the dangers of Bolshevism.

The real circumstances of Kapp's retirement are still shrouded in mystery. An important factor undoubtedly is found in the deliberations of the under secretaries and the imperial council, which Major-General von Luetwitz attended. The views of this conference were that both Kapp and von Luetwitz withdrew in order to terminate an intolerable position.

Von Luetwitz agreed to this, but when he returned to the chancellor he allowed himself to be persuaded to change his mind and retain office. To him has been delegated the executive power by the former revolutionary chancellor, and it is difficult to say what will happen now that Von Luetwitz remains military dictator of Berlin.

Although the general strike dealt this government a mortal blow, the decisive fact is that Kapp and his supporters had no political prestige, their government being built only on machine guns.

The statements made at these conferences gave a strange impression, and caused a suspicion that the cry of alarm about the Bolsheviks was preliminary to the announcement of retreat. The chief of the press bureau warned the correspondents against showing themselves in the streets as a communist revolt was expected hourly.

That any kind of compromise is out of the question now is undoubted. President Ebert, of the old government, is strongly entrenched at Stuttgart, where, according to semi-official dispatches, the council of the empire met and unanimously approved the old government and strongly condemned the military coup at Berlin.

Frightened Berliners were asking: "The White or Red terror? Which?" This was in consequence of an official announcement that the Reds were planning an uprising calling upon the people to save the country from Bolshevism.

Have Their Own Troubles

Washington.—Hastening to close the way for final action on the peace treaty, the senate choked off a St. Patrick's Day debate on the Irish question by tabling, 54 to 21, a proposal to declare by reservation that Great Britain should proclaim Ireland free.

"SYRUP OF FIGS" CHILD'S LAXATIVE

Look at tongue! Remove poisons from little stomach, liver and bowels

Accept "California" Syrup of Figs only—look for the name California on the package, then you are sure your child is having the best and most harmless laxative or physic for the little stomach, liver and bowels.
